

April 2021

Dear Goh Ballet Community,

I'm delighted to announce our summer dance offerings for 2021. As we best adapt to the 'new normal', Goh Ballet aims to continue to find ways of providing our students with artistic inspiration and an array of opportunities which contribute to holistic achievements and development. With the re-energized hope and promise that 2021 holds, my staff and I look forward to our selection of summer programs which will propel students' progress and further nurture their love of dance.

My dedication to shaping a dynamic schedule capable of supporting our students' growth both artistically and as individuals is steadfast, curating new programming to foster resilience, creativity and self-expression. This year we have engaged some fantastic guest instructors and choreographers to work with students throughout the summer months to cultivate students' versatility and provide them with connections to the professional world of dance.

Rest assured that health and safety will continue to be at the forefront of Goh Ballet's operations. No matter how requirements and mandated government restrictions continue to change between now and July, Goh Ballet will continue to ensure that our focused efforts on keeping our community safe are unwavering.

To receive a tailored Summer Dance Package for your child with recommendations for summer programming as recommended by our artistic faculty, please contact us. Our administrative team is available for all communications and we welcome you to reach out for further information and to register.

The arts have the undeniable power to help us overcome challenges and differences, fostering inclusivity, and joy through the universal language of dance. Although things might still look a little different than what we are used to, we will keep moving forward and dance together in this shared journey.

Sincere regards,
